SUMMARY

Product and data analyst who builds AI products. Partners with engineering, product and executive teams to define requirements, run Agile delivery in Jira and turn SQL, Databricks and Power BI analysis into decisions. Builds hands-on with AI agents, RAG and MLOps, including Cosignal, an approval and audit layer for AI agents that move money.

EDUCATION

Carl H. Lindner College of Business, University of Cincinnati **Aug 2025 – Current**

Master of Science, Information Systems | Data Analysis & AI

University of Delhi **Graduated Jul 2023**

Bachelor of Arts | Technology

SKILLS

- **Product & Agile:** PMP® Certified, Jira, Agile Sprint Planning, Backlog Grooming, Scope Definition, SDLC
- **Data & Cloud:** SQL, Python, Power BI, Databricks, Microsoft Azure, Google Cloud Platform, Data Modeling, Advanced Excel
- **AI & Machine Learning:** Agentic AI, RAG, LangChain, Vector Databases, XGBoost, MLflow, SHAP, Streamlit
- **Enterprise Tools:** Salesforce CRM, ZoomInfo, Bloomberg, Factiva, Capital IQ, Google Workspace, GitHub Actions

WORK EXPERIENCE

Product Analyst Intern / Consultant – Ascendum Solutions | Cincinnati, Ohio **May 2026 – Present**

- Partner with product managers, engineering teams and executive stakeholders to define feature requirements and roadmap priorities for an enterprise agent-to-agent (A2A) SaaS platform.
- Architect and deploy custom AI agents on **Google Cloud Platform (GCP)** to automate competitive research, technical documentation and root-cause analysis.
- Run sprint planning, user story backlogs and milestone tracking in **Jira**, applying PMP practices to keep release cycles predictable.
- Build **Power BI** dashboards on **SQL and Databricks** to track platform adoption, agent telemetry and KPIs, and turn the findings into executive-ready recommendations on workflow bottlenecks.
- Built bidirectional field mappings for **170 retail customers** in a bank's lockbox platform migration.

Teaching Assistant – Digital Technology in Business | Cincinnati, Ohio **Aug 2025 – May 2026**

Carl H. Lindner College of Business, University of Cincinnati

- Mentored **100+ undergraduate students** through lab lectures, practical tutorials and digital business assignments.
- Taught hands-on Excel modeling, SQL and Python, applying each tool to real-world business problems.

Cloud Analyst – Google Operations Center | Gurugram, India **Sep 2023 – Apr 2025**

Google Services India Pvt. Ltd.

- Delivered business intelligence and client data to US enterprise sales and business development teams.
- Managed and optimized sales campaigns in Salesforce, monitoring performance metrics and making data adjustments.
- Identified and qualified high-potential accounts using ZoomInfo, Bloomberg, Factiva and Capital IQ.

Marketing Executive – Malvern Panalytical | Gurugram, India **Jun 2023 – Sep 2023**

Spectris

- Developed digital engagement programs and tracked MQL performance in Salesforce, collaborating across global teams.

PROJECTS

- **Cosignal** | *Python* – Built a human-in-the-loop approval and audit layer for AI agents that move money: policy rules route risky payments to a human reviewer, and every action is recorded in an audit trail. Presented at UC's Friday Seminar series.
- **Hospital Readmission Prediction (MLOps)** | *Python, XGBoost, Random Forest, MLflow, SHAP, Streamlit* – Built an end-to-end pipeline that predicts readmission risk, tracks experiments in MLflow and explains each prediction with SHAP.
- **RAG From Scratch** | *LangChain, FAISS, Chroma, LoRA* – Built a retrieval-augmented generation system with document ingestion, local embeddings, vector search and LoRA fine-tuning.
- **Consultant Hub** | *React, TypeScript, Azure Static Web Apps, GitHub Actions* – Built a React and TypeScript app with serverless APIs, and set up a CI/CD workflow that automatically builds and deploys it to Azure on every push.

ACCOMPLISHMENTS

● 2nd Place, Nucor Hackathon (SQL analysis and 2026 strategy recommendations) ● Project Management Professional (PMP)® ● Google Data Analyst Certified ● Google Labs Agentic AI Foundations ● Python & R Certificates ● German Language Certificate
